CATALYST CLIENT ESSNOVA EARNS ISO 9001 CERTIFICATION

Stennis Space Center, MS – Birmingham, AL-based geospatial firm Essnova, a member of the Enterprise for Innovative Geospatial Solutions (EIGS) Cluster, announced they have achieved International Organization for Standardization (ISO) 9001 certification. By meeting the extensive criteria for these standards, the company affirms its ability to consistently deliver effective quality management systems, comply with security requirements, and drive continuous improvements to products, services, and internal processes.

“Our goal is to provide our clients with software and services to improve quality so that they can become more competitive in their respective markets,” said Sridhara Gutti, president Essnova. “By obtaining the ISO 9001:2015 certification, we are signifying our assurance to our clients’ successes, as well as our commitment to making our own organization more efficient. Thus, we can best serve our customers and provide more value through our quality management solutions.”

The world’s most popular quality management system standard, ISO 9001:2015 helps businesses prove their ability to consistently provide products and services that meet customer and applicable statutory and regulatory requirements. Obtained through, external audits performed by an independent accredited registrar company, the certification aims to enhance customer satisfaction through the effective application of a company’s system, including processes for improving the system and assuring compliance with various regulations.

Serving a wide range of commercial clients across the globe, Essnova is rapidly emerging as a market leader for geospatial consulting. In addition to geospatial consulting, Essnova provides software development, recruitment and placing services. A team of GIS professionals founded Essnova in 2005 filling an industry need for an IT consulting firm who could combine deep experience in GIS with a more cost effective approach to project engagements. Essnova is an SBA 8(a), HUBZone Certified Minority Business Enterprise (MBE) based in Birmingham, Alabama and is led by a highly qualified and experienced management team.
